

Ventilation Installer Training Course

Accredited by **bpec**

2017 Training Course Dates

Become a BPEC Certified Ventilation Installer

Domestic ventilation became 'Notifiable Work' on 1st October 2010 as part of the 2010 revision to Approved Document F of the Building Regulations. This means ventilation provision in new homes must be commissioned by a suitably qualified person.

This ventilation installer training course provides installers with the opportunity to learn new skills and increase their scope of work.

Training course objectives

The objectives of this training course are to enable delegates to:

- Install and inspect common types of domestic ventilation systems in the UK
- Commission any of the common types of domestic ventilation systems in the UK safely and efficiently
