# Above Ground, Plumbing & Heating and Underfloor Heating

# Welcome to Polypipe

At Polypipe, conceiving, designing, manufacturing and delivering the most advanced products and systems isn't merely an occupation. It's a passion. One that's based around a few simple beliefs. Expertise isn't an option. Quality always beats quantity. Products are nothing without service and support. Sustainability isn't just a 'green' word. And working with our customers is much better than simply supplying them.

## Soil Systems

Developed and manufactured with quality, innovation and longevity in mind, Polypipe Building Products' soil range is the most comprehensive and technologically advanced in the UK residential market.

Take, for example, our PolySoil® systems. Manufactured using single-piece moulding technology, they offer improved performance and system durability. This, in conjunction with our Ring Lock Seal technology, removes the risk of seal distortion and dislodging during fitting, for straightforward, secure installation.

Our PolySoil® and Solvent Weld soil systems are available in an extensive range of colours and sizes, making them suitable for most projects.

When it comes to heritage projects where both product and installation costs are a consideration, our Cast Iron Effect ring seal system combines traditional aesthetics with modern performance. In instances where cast iron might be specified for its sound-deadening qualities, we also offer our Acoustic Soil system, maximising resident comfort while remaining cost-effective.

## Waste Systems

Polypipe Building Products' comprehensive waste range includes three solvent weld waste systems, ABS, MuPVC & Overflow, accompanied by Push-fit, compression and Push-fit overflow products.

Our updated waste range introduces innovative technology, a first in drainage and waste products offered by Polypipe in the UK. This advancement is incorporated into our ABS, Push-fit, and Compression Waste fittings, as well as our ABS and Push-fit Multi-layer waste pipes.

This unique feature allows you to reduce your project's carbon footprint by specifying our new sustainable Multi-layer waste pipe, which includes a core made from recycled materials. This environmentally-friendly construction supports sustainable building practices without compromising quality or performance.

## Traps

### Polypipe Building Products' traps range provides superior flexibility and ease of installation.

With our investment in our extensive traps range, we're happy to include our Fit-Rite® technology, providing extra assurance during installation. The improved compression range and the introduction of a 50mm bath trap make installations in confined spaces more accessible. Additionally, we are the only manufacturer with a Kitemark™ Accredited Traps range, ensuring the highest standards of quality and reliability for added peace of mind.

## Rainwater Systems

Polypipe has the most comprehensive rainwater offer in the UK, in both profiles and colours.

Our ranges are also supported by our vast range of adaptors which allow our systems to be connected to nearly all types of existing installations, including cast iron. Polypipe Building Products in recent years has also innovated with its unique Notched Ogee gutter system, which stops gutter becoming dislodged through heat expansion and contraction. Our Elegance Cast Iron Effect range is a perfect cost effective solution to traditional cast iron systems where local planning requires this type of system to be installed.
